Introduction

The Authlogics Self Service Portal is a simple website which allows you to do simple tasks yourself without having to get help from the IT team. You can:

- Setup your own mobile phone, tablet or PC so that it can be used as a multi-factor token – add up to 10 of them.
- Update your PINgrid pattern, PINpass PIN code and answer the PINphrase security questions.
- Change your Mobile / Cellular phone number.
- Even reset and unlock your network (Active Directory) password.

Tip: Some of these features may have been disabled by your IT team.

Your Welcome

When you are first enabled to use Authlogics, you should receive a welcome email (or print-out) containing your initial logon information and a link to the Self Service Portal. If you do not have the welcome information, please contact your IT team.

*** PRIVATE AND CONFIDENTIAL - PLEASE READ IN PRIVATE ***

To: Greg Norman
Email: gregn@authlogicsdemo.com

An Authlogics user account has been created for you along with a PINgrid Pattern. This Pattern has been uniquely created **specifically for you** - much like your first password. You will use your Pattern to prove your identity when you log onto web portals or applications which display the PINgrid logo.

Here is your new Pattern - please change it to something only you will know and remember.

Your user account name is: **gregn**
A PINgrid grid will be provided to you via an app on your mobile device.

Your pattern is the following:

1TH			
		2ND	3RD
		4TH	5TH
			6TH

You can change your Pattern at any time you like using the Self Service Portal at this link: <https://localhost:14443>

What is a One Time PIN (OTP)?
A One Time PIN (OTP) is typically a short sequence of numbers, similar to a PIN, however you don't have to remember anything and the numbers change every time you use it.

How to use your Pattern to get your One Time PIN
Using your Pattern is simple. When you need to logon and you are shown a PINgrid grid, simply look at each square in the grid in the order that matches your Pattern. Each

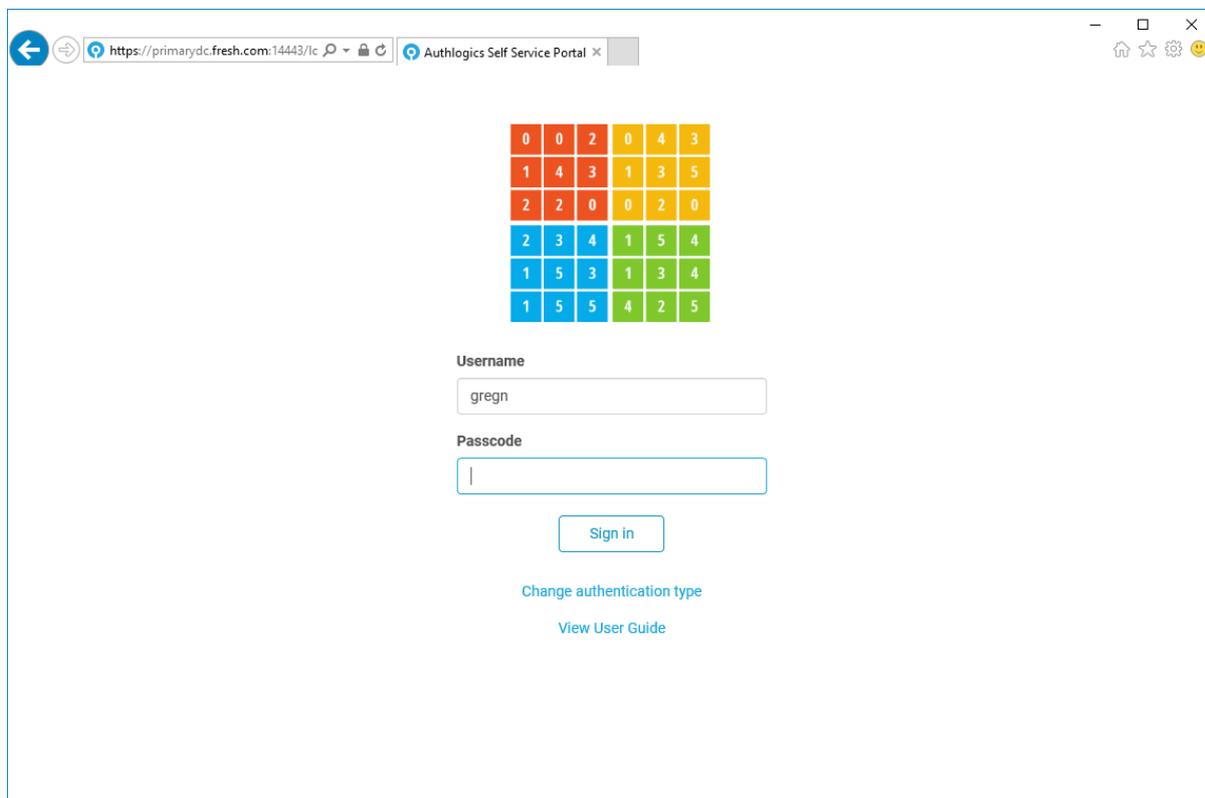

Your first logon

Click the link in your welcome email to access the Self Service Portal.

Enter your Username and Passcode and click **Sign in**.

Tip: You can get your login details by using the information in the welcome email.

Updating your account

Changing your phone number

To change your Mobile / Cellular phone number, reset your password or unlock your account, select **Account** from the menu.

The screenshot shows the 'Account' page in the Authlogics Self Service Portal. The page title is 'Account' and the user is identified as 'Greg Norman (gregn)'. The left sidebar contains a menu with 'Account' selected, along with other options like 'PINgrid settings', 'PINphrase settings', 'PINpass settings', 'Devices', 'View User Guide', and 'Logout'. The main content area has three sections: 1. 'Mobile / Cellular Number' with a text input field containing '+44759136XXXX' and a 'Save' button. 2. 'Password' section with two input fields labeled 'New password' and 'Confirm password', and a 'Reset' button. 3. 'Unlock' section with an 'Unlock' button. The browser address bar shows 'https://primarydc.fresh.com:14443/#' and the page title is 'Authlogics Self Service Portal'.

To change your phone number, enter your new number and click **Save**, and if successful, the following message will be displayed:

Your Mobile / Cellular phone number was updated successfully.

Resetting your password

To reset your network password simply enter your new password in both password boxes.

A popup balloon may appear which help guide you through choosing a new password which meets the company policy and is secure. Once all the items in the balloon have green ticks you know your new password is safe to use.

If you choose a bad password:

To enter your new Windows password in each box below.

✘ Not previously compromised

Pa..... Confirm

.....

Reset

If you choose a good password:

To enter your new Windows password in each box below.

✔ Not previously compromised

Pa..... Confirm

.....

Reset

Click **Reset** to save the new password, and if successful, the following message will be displayed:

Your Password was updated successfully.

Unlocking your account

If your network account has been locked out you can unlock it yourself instead of waiting for your IT team to do it for you.

To unlock your Windows account, click the Unlock button.

Unlock

Simply click **Unlock**, and if successful, the following message will be displayed:

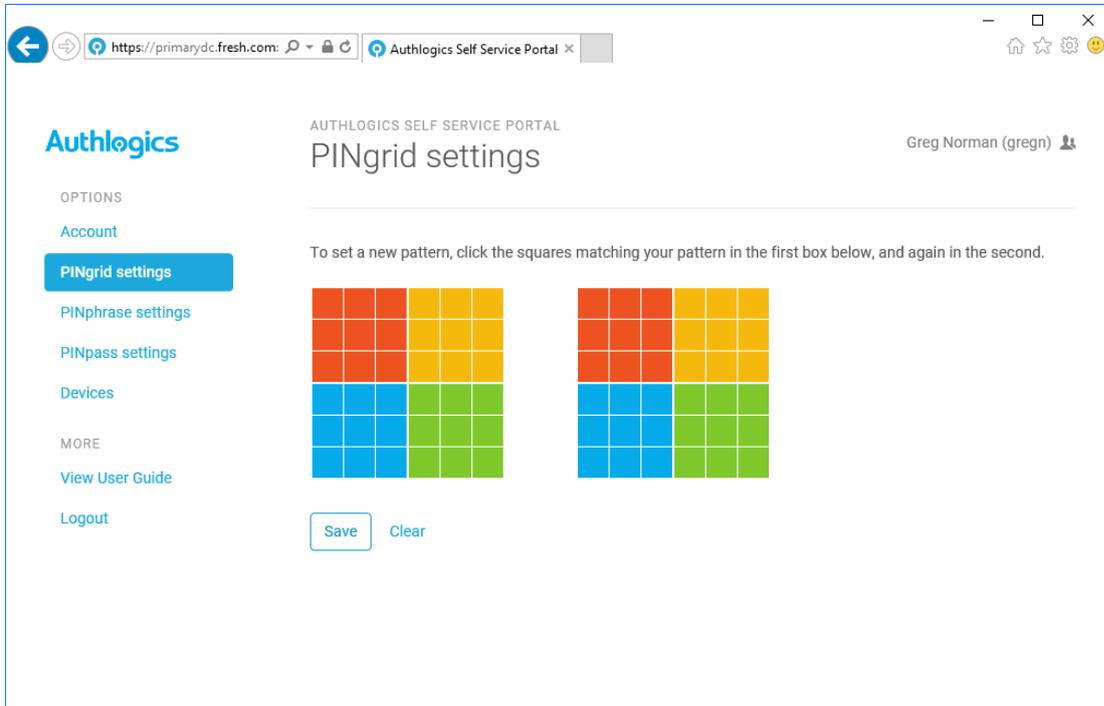

Your account was unlocked successfully.

Changing your PINgrid pattern

To change your PINgrid pattern, select *PINgrid settings* from the menu.

On the first grid, click the squares you will use for your new pattern. Then click the same squares on the second grid to confirm your new pattern.

Click **Save** to apply the changes, and if successful, the following message will be displayed:

Your Pattern was updated successfully.

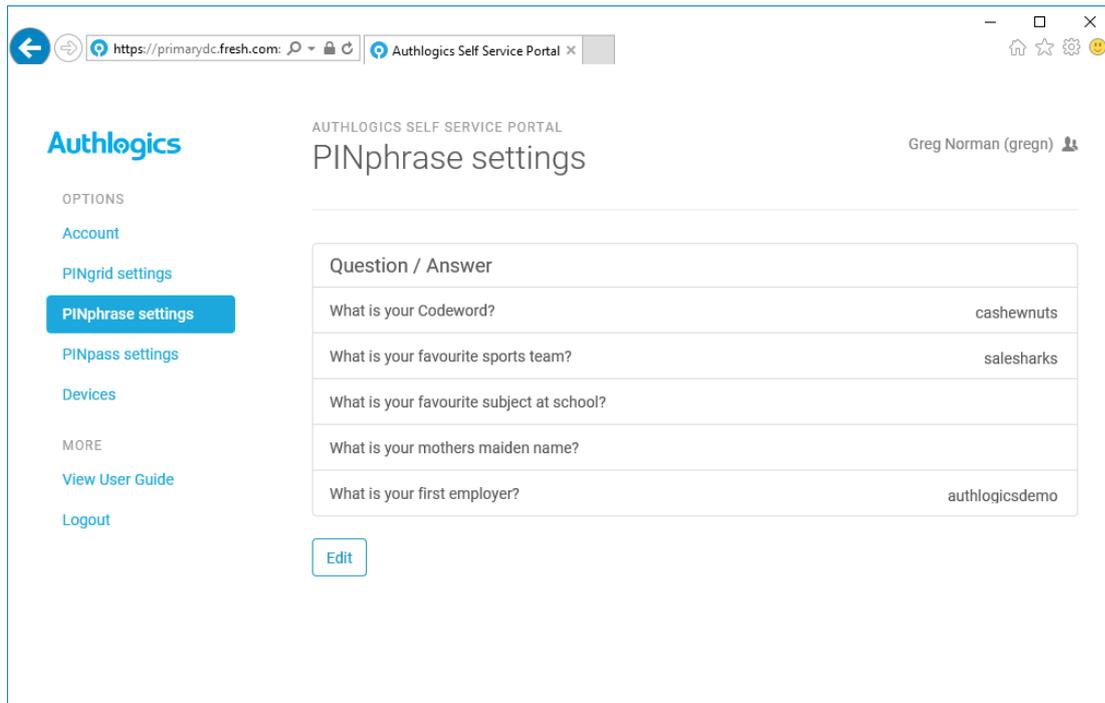

Setting your PINphrase answers

To answer the PINphrase questions provided by your IT team, select **PINphrase settings** from the menu.

To add or update your answers, click **Edit**. Highlight the question you wish to answer and type in your answer.

Tip: Spaces are not counted as a letter, so multiple word answers will be treated as a single word.

The screenshot shows a web browser window with the URL <https://primarydc.fresh.com>. The page title is "AUTHLOGICS SELF SERVICE PORTAL" and the user is logged in as "Greg Norman (gregn)". The main heading is "PINphrase settings". On the left, there is a navigation menu with "PINphrase settings" highlighted. The main content area contains a table with the following questions and answers:

Question / Answer	
What is your Codeword?	cashewnuts
What is your favourite sports team?	salesharks
What is your favourite subject at school?	
What is your mothers maiden name?	
What is your first employer?	authlogicsdemo

Below the table is an "Edit" button.

Click **Save** to apply the changes, and if successful, the following message will be displayed:

PINphrase answers have been successfully updated.

Changing your PINpass PIN code

To change your PINpass PIN code, select *PINpass settings* from the menu.

Enter your new PIN code in both PIN boxes.

The screenshot shows a web browser window with the URL <https://primarydc.fresh.com> and the page title "Authlogics Self Service Portal". The page content includes the Authlogics logo, the user name "Greg Norman (gregn)", and a navigation menu with options like "Account", "PINgrid settings", "PINphrase settings", "PINpass settings" (highlighted), "Devices", "View User Guide", and "Logout". The main content area is titled "AUTHLOGICS SELF SERVICE PORTAL PINpass settings" and contains the instruction: "Enter your new Pinpass PIN in each box below and click the Save button." Below this instruction are two input fields: "PIN" and "Confirm PIN", followed by a "Save" button.

Click **Save** to apply the changes, and if successful, the following message will be displayed:

Your PIN was updated successfully.

Setup your own mobile device

The first step is to install the **Authlogics Authenticator** app. The app is available on the following online stores as a free download:

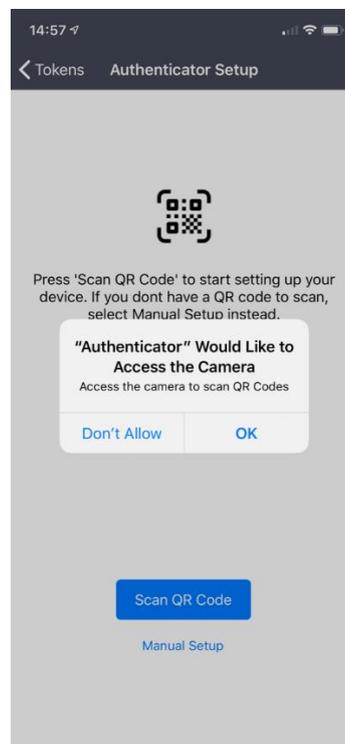

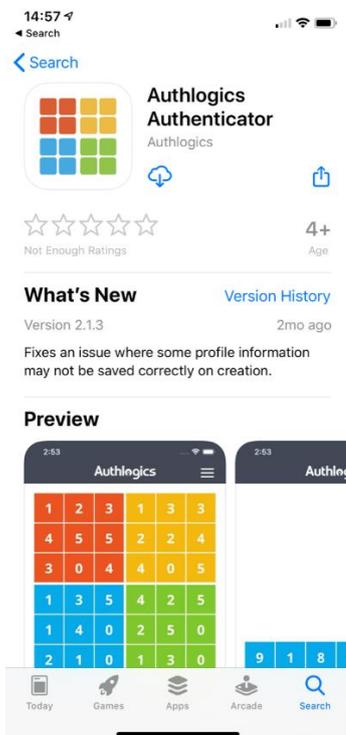

Tip: When installing the Authlogics Authenticator app please ensure that the device's clock and time zone are correct otherwise you may not be able to logon with the app.

Installing the app from the Apple App Store

Open the **App Store** app and search for "Authlogics Authenticator". Tap **INSTALL** to begin. Tap **ACCEPT** to give the app access to your device, then the install will complete. When finished, tap **OPEN**.

Step 1 - Tap **INSTALL** to download and install the app.

Step 2 - Tap **Open** when installed to launch the app and select **OK** to allow access to the device's camera.

Running the app for the first time

On the first run, the Authlogics Authenticator will ask you which authentication type you have been set up for, you will know this from your welcome email. Once loaded you will need to get your unique Device ID so you can add it into the Self Service Portal later.

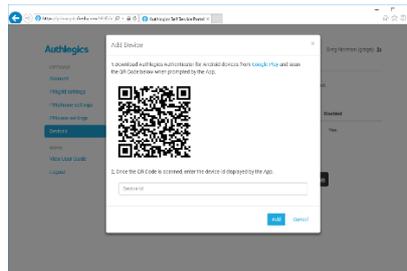

Step 1 – Setup the authenticator by Scanning a QR Code or through a manual setup.

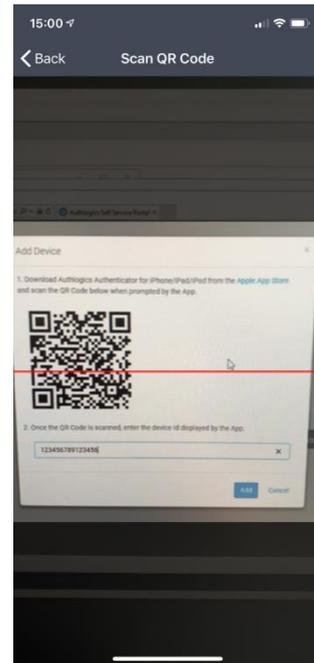

Press 'Scan QR Code' to start setting up your device. If you dont have a QR code to scan, select Manual Setup instead.

Step 2 – Open the SSP, select Add Device and select the appropriate device type (see Adding your device to your account).

Step 3 – Tap Scan QR Code and scan the QR Code.

Step 4 – Setup is now complete. Add the displayed Id into SSP Device Id.

Device setup is complete. Please copy the Device Id below into the web page containing the QR code.

5739 9722 5211 2427

Finish

Step 5 – Tap Finish. Your device is now provisioned for use with Authlogics

2	1	5	3	1	4
4	4	1	5	4	4
2	1	2	0	0	0
5	1	3	4	2	3
2	3	0	2	3	5
0	3	5	0	1	5

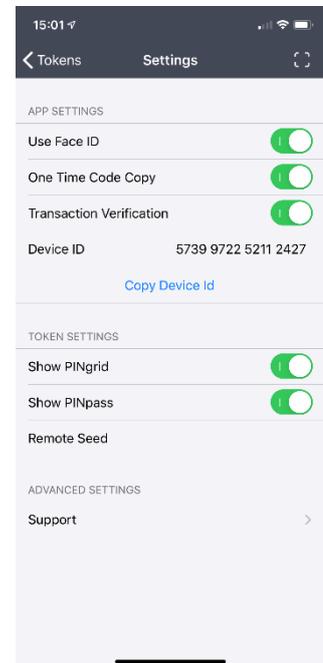

Configuring your App

Once installed, the App behaviour can be customised by modifying the settings. Select Settings and turn on or off:

- Biometrics
- One Time Code Copy
- Transaction Verification
- Show PINgrid
- Show PINpass

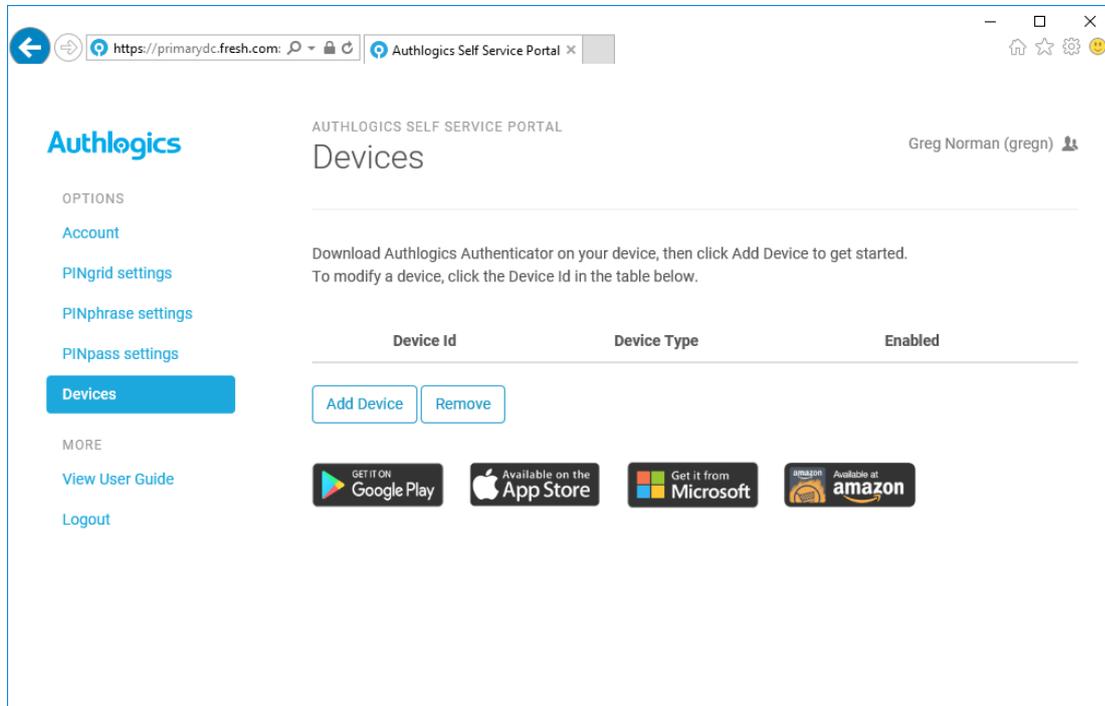

The Device Id can be accessed from within settings if required.

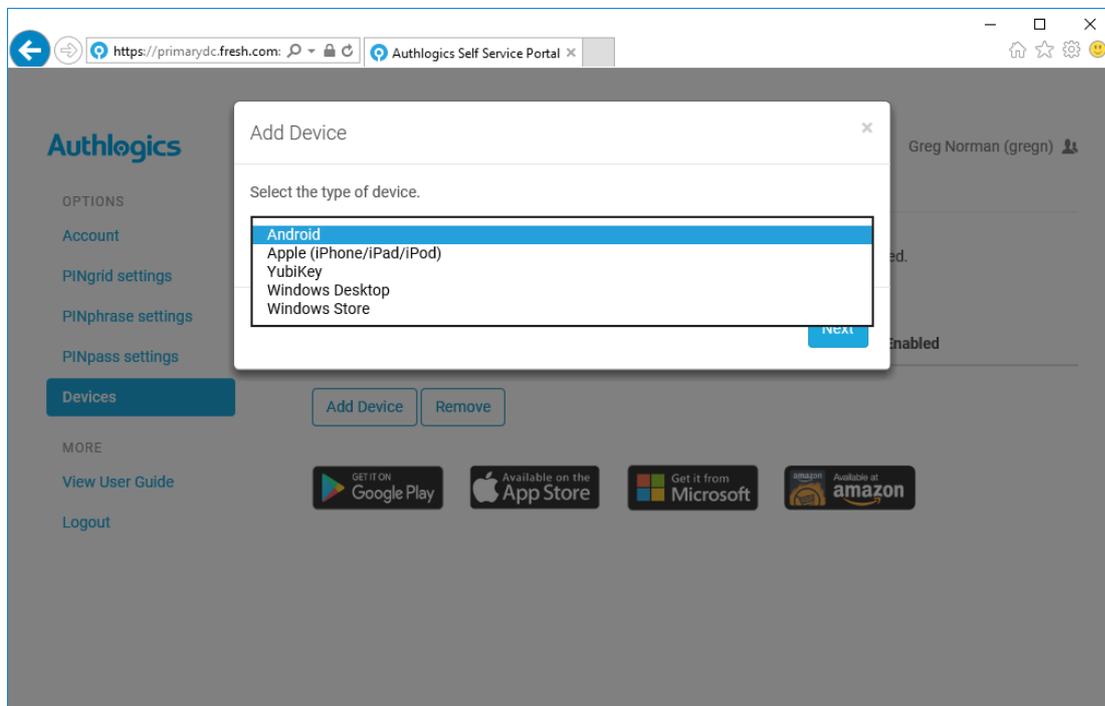

Adding your device to your account

To add a mobile device to your account, select *Devices* from the menu.

Click *Add Device*

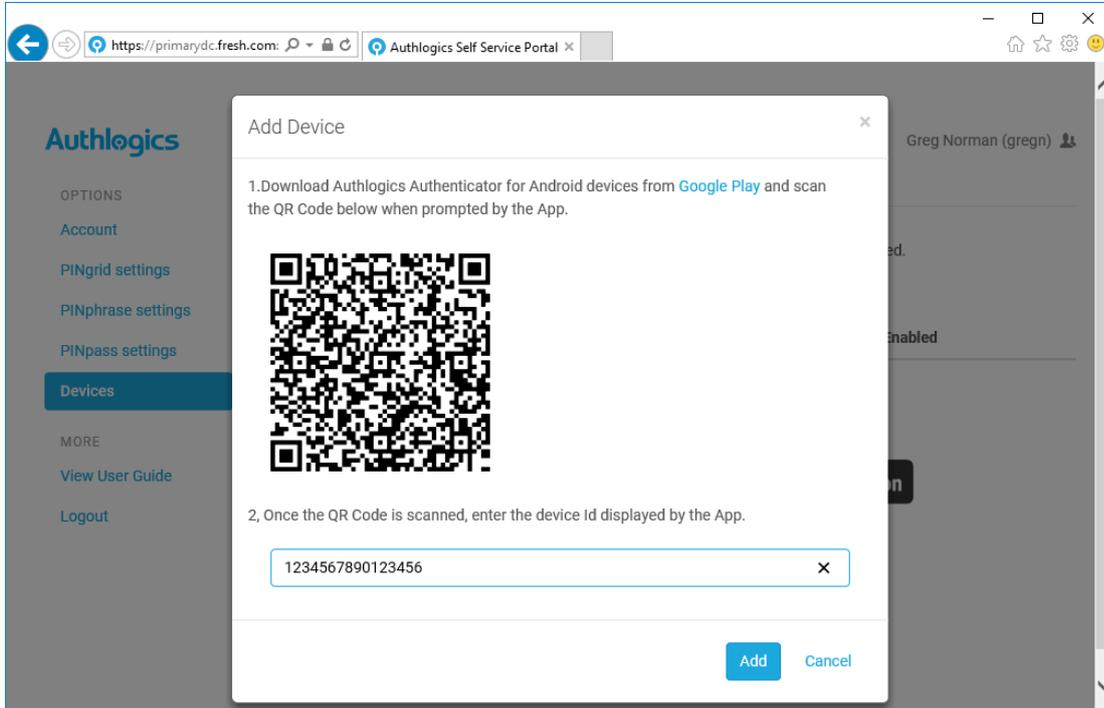

Choose the type of device you installed the app onto, e.g. Android.

Enter the Device ID from App on the device and click **Add**. If successful, the new device will be visible under devices.

To apply the configuration to your mobile phone app, use the QR Scan option in the app and scan the QR code displayed in the Self service Portal.

Your device is now ready for use a multi-factor authentication token for your Authlogics account.
